2) Privacy notice

General privacy information for event registration can be found in the b@s videochallenge privacy statement, available [here](#). In the framework of the award ceremony, the personal information of the above guest will be processed as described in the privacy statement for Zoom videoconferencing services, available [here](#).

3) Privacy consent

For persons under age 16, to be completed by a parent/legal guardian:

I/we hereby consent to the processing of the personal data of the above guest by The Boston Consulting Group GmbH as responsible party.

I/We understand that this consent applies to the following categories of personal data:

- audio and video recordings, images, and other data audible over the microphone function or visible over the camera function, as well as
- text data over the chat function,

which the above guest may voluntarily use while attending the b@s videochallenge award ceremony.

I/We are aware that

- the event will be recorded so that excerpts may be published or quoted for information and marketing purposes in the press, the publicly accessible part of the b@s videochallenge website, on various social media channels such as Facebook, Instagram, and similar, and in publications of The Boston Consulting Group GmbH and b@s videochallenge partner companies.

- recordings may be made of audio, video, and images of the above guest if their microphone and/or camera function is activated, as well as of other information in their surroundings that is audible over the microphone or visible over the camera, including pertaining to other people.

Read [here](#) to find out more about consent to the recording of data from the microphone and camera functions.

Consent is voluntary. Refusing to grant consent will result in no disadvantage. Consent is voluntary and may be revoked at any time with effect for the future. Consent may be revoked by sending an e-mail to info@videochallenge.online or a message to a member of the b@s videochallenge team during the event. Any data processing that has taken place before revocation will not be affected.
